

Estar,

Architect

Estar is looking for an immediate start or depending on availability, for an architect with professional experience in the field of project management and detailed planning in the Swiss context. We search for applicants whose profile meets the following criteria:

- Ability in the coordination of consultants, authorities and contractors.
- Competence to cover a wide range of architectural and constructive tasks.
- Capability to structure tasks independently with commitment and creative skill.
- The mastery of French, both orally and written, is essential.
- Good knowledge of Autocad.

We offer interesting and stimulating tasks in high-quality Swiss projects in advanced phases of development in our office in Santiago de Compostela and in close collaboration with our Geneva partners.

We look forward to receiving your application along with a short CV and significant work samples in PDF format.

Please apply only if your profile matches the above criteria and send your documents by email to info@estar.archi

Interns

Estar is looking for new interns starting January for a period of 6 months. Architectural affinity and strong model making skills required. We offer interesting and stimulating tasks in high-quality projects in various phases of development in our office in Santiago de Compostela.

Please send portfolios to info@estar.archi
